

Feather

You're as sweet and soften as a warm breeze
Like we felt on summerdays
Your skin seems bright as a sunset
Like we've seen it on summerdays

When we touch
When we kiss
When we felt light as a feather

You are love
You are heaven
You are high about it all, it all

You are love
You are heaven
You are high about it all
Your eyes are deeper than the ocean
And I can dive in on summerdays
You're as clear as a fountain
Washed the pain away on summerdays

When we touch
When we kiss
When we felt light as a feather

You are love
You are heaven
You are high about it all, it all
You are love
You are heaven
You are high about it all, it all
You are love
You are heaven
You are high about it all
