## Ocean

You're wondering cause nobody is kind anymore  
You're wondering why no one's left behind

And you're feeling done of searching for love  
And you're feeling sad and kind of weird above

You're the only one that runs ahead  
All the others laying down in bed

And you're feeling done of searching for some sort of life  
All you want to do is dive

Into the ocean  
With light emotion you need explosion  
It's you alone who can dive

Into the ocean  
With light emotion you need explosion  
It's you alone who can dive  
Into the ocean

Live your life's the only choise you need  
No one couldn't give you more indeed

Don't you feeling done of searching for others kind of life  
All you need to do is dive

Into the ocean  
With light emotion you need explosion  
It's you alone who can dive  
Into the ocean  
With light emotion you need explosion  
It's you alone who can dive  
Into the ocean
