

Leave

I wanna forgive myself
For the things I have lost
Things I've expected
But for once I never could have reached
I don't wanna regret
A thing
I'll be back around
But to learn how to feel
myself for real I have to move

And I say to myself
Oh just leave - Leave
The door, your house
If you wanna go
Then just leave - Leave
The door, your house
If you wanna go
Then just leave
Oh once more

I wanna be free
from you
Safe from your harm
Be loved and embraced
By someone who really cares for me
And I wanna be me again
Breathe in good life
Be proud of who I am
And hold on to
Whatever it might take

And I say to myself
Oh just leave - Leave
The door, your house
If you wanna go
Then just leave - Leave
The door, your house
If you wanna go
Then just leave
Oh once more

Yeah Hu...
