

I Miss You

I hope you're fine
And you're doing alright
When you're thinking about me everytime
I can say that I'm fine
And I'm doing alright
Cause I don't think about you everytime

Only in the night
If I'm lonesome and I'm tired
Only when the sun comes up

I miss you
In my dreams I am kissing you
Even I'll regret it I love you
It's the truth
Nothing but the truuuuuth
It's the truuuuuth

Do you care
If we can't start again
Even you're thinking about me everytime
Should I care
If we won't start again
Cause I don't think about you everytime

Only in the night
If I'm lonesome and I'm tired
Only when the sun comes up

I miss you
In my dreams I am kissing you
Even I'll regret it I love you
It's the truth
Nothing but the truth

Even if it hurts sometimes
I don't mind
Even if you won't share your time
I won't surrender
